SMART DOOR LOCKING SYSTEMS CATALOG

falezçelikkapi®
Smart Locking System

DESI FC-60

Features

Features

10.000 times full locking-unlocking without changing the lithium batteries.

Full locking control with Finger Print

Design that does not prevent to use lock with key

500 DPI optical reader

Memory for 1900 finger print and three admin

Finger print reading system within 1 second.

SMD (surface mount device) technology resisting to shocks.

PRICE: 400 \$

DESI FRC-80

Features

Full locking control with Finger Print

Design that does not prevent to use lock with key

500 DPI optical reader

Memory for 1900 finger print and three admin

Finger print reading system within 1 second.

Suitable with Smart Home System

SMD (surface mount device) technology resisting to shocks.

PRICE: 425 \$

DESI FC-100

Features

10.000 times full locking-unlocking without changing the lithium batteries.

Full locking control with Finger Print

Design that does not prevent to use lock with key

500 DPI optical reader

Memory for 1900 finger print and three admin

Finger print reading system within 1 second.

Integrated Alarm System

SMD (surface mount device) technology resisting to shocks.

Remote Control Technology with multiple code (Rolling Code System)

PRICE: 450 \$

Smart Locking System

DESI UTOPIC URC 60

Features

Remote control with display for easy use
2 user remote controls in addition to the remote control
Design that does not prevent to use lock with key
3.000 times full locking-unlocking without changing the alkaline batteries.
Up to 40 remote control learning capacity
"Thanks to wireless communication infrastructure full integration with home automation systems"

Highly secure variable code remote control

PRICE: 200 \$

DESI UTOPIC UFC-60 FINGER PRINT

Features

Remote control with display for easy use
Design that does not prevent to use lock with key
4.000 times full locking-unlocking without changing the alkaline batteries.
A large memory which recognizes up to 100 finger prints
"Thanks to wireless communication infrastructure full integration with home automation systems"

High security 500 DPI sensor sensibility & capacitive finger print reader technology

PRICE: 355 \$

KALE X 10

Features

Remote control capacity 40 pcs (optional 100 pcs)
Use of chargeable batteries with mains supply adaptor (optional)
Keylock technology
"Operates with 4 pcs AA size Alkaline battery. Approximately 5.000 times opening & closing. If Lithium batteries are used upto average 10.000 times (Depends on mortise lock type, number of throws and daily usage)"
SAW resonator, rolling code Locking by DC operated microelectronic motor .

PRICE: 275 \$

Smart Locking System

YALE CARD LOCKING SYSTEM

Features

4 pieces RFID card (up to 40 card optional)
6-12 digit password can be defined
Smart Touch Screen
Alarm in case of compulsion and high temperature
Low battery signal
Door Thickness 40mm-80mm
Lost Card Cancellation
Automatic locking system

PRICE: 333 \$

DESI ALARM SYSTEM

Features

Suitable for all doors.
Can be controlled by keypad
"Has double protection: It senses door's opening(by magnetic switch).It
senses shocks caused by drilling or using lever on the door.(by shock sensor)"
Uses 2 x AA size batteries.(Alkaline or lithium)
Installed through door.(embedded)

PRICE: 20 \$

DESI ALARM SYSTEM WITH REMOTE CONTROL Features

Suitable for all doors.
Can be controlled by keypad and remote controller.
"Has double protection: It senses door's opening(by magnetic switch).It
senses shocks caused by drilling or using lever on the door.(by shock sensor)"
Uses 2 x AA size batteries.(Alkaline or lithium)
Installed through door.(embedded)

PRICE: 30 \$
